## ROGE-2026 Welcome Message

We aspire to cultivate a spirit of intellectual curiosity—one that draws thoughtfully on the wisdom of the past while boldly engaging with new and emerging ideas. It is our sincere hope that this conference will serve as a platform for meaningful dialogue and collaboration, fostering purposeful relationships that endure well beyond the event itself.

The conference, organised jointly by the Centre for Business & Economic Research (CBER) and Future University in Egypt (FUE), aims to explore a wide spectrum of contemporary issues across business and management disciplines including Business Management, Finance, Banking and Accounting, Information Technology, Marketing, Human Resource Management, Hospitality and Tourism Management, Growth and Economic Development, Globalisation, and International Trade. As such, the conference welcomes contributions that will engage scholars, practitioners, and researchers from both developed and developing economies, addressing a truly global audience.

We are especially keen to encourage research that critically examines how management thinking must evolve, adapt, or be reimagined to remain effective and efficient in today's rapidly changing global environment.

We are confident that the 2026 CBER-FUE International Conference on “Restructuring of the Global Economy – Promoting Sustainability” will provide a stimulating forum for disseminating research, exchanging ideas, learning from peers, and building networks with like-minded scholars from around the world.

**We warmly look forward to welcoming you in Oxford, at the University of Oxford, in 2026.**

## 15<sup>th</sup> International Conference on the Restructuring of the Global Economy (ROGE) - "Promoting Sustainability"

### Invitation

You are cordially invited to attend the 2026 CBER-FUE International Academic Conference, held on Monday 10 August and Tuesday 11 August 2026, will be hosted jointly by the Centre for Business & Economic Research (CBER), UK in collaboration with the Faculty of Commerce and Business Administration-Future University in Egypt

### Conference Theme:

#### **Restructuring of the Global Economy -Promoting Sustainability**

Ever since the publication of the BRIC (Brazil, Russia, India and China) report by Goldman Sachs in 2001, the debate about the role of so-called developing emerging countries versus the supposed developed countries in shaping global business has gathered momentum. A revised version of the same report entitled BRICs and Beyond by the same authors, with upward revision of certain growth projections, has added further fuel to the debate so much so that by now, most countries have accepted that the world economy is in transition. A second wave of nations, the MINTs (Mexico, Indonesia, Nigeria and Turkey) have also been mooted as ones to watch, whilst the ramifications of the global financial crisis of 2008 has caused many of the established economic orthodoxies to be both questioned and challenged. In addition, geo-political considerations combined with anxieties over energy, water and fuel security have raised serious questions about policy, future strategy and the merits and demerits of globalisation.

It is entirely understandable that such a changing economic dynamic calls for fresh thinking towards the formulation of policies examining macroeconomic stability as well as framing of strategies by firms irrespective of their sizes. Multinationals and SMEs, all will be involved in formulating strategies in order to survive, compete and grow. There is intense pressure on both governments and businesses to perform and deliver. In such a scenario, alternative and maybe radical policies and strategies will need to be thought out and placed before the decision-making bodies. New technology, changing demographics and the need to meet the demands of diverse stakeholders ensures that for policy makers and practitioners alike these are indeed challenging times.

We all need to be receptive to new ideas. Sadly, in some respects many of us have allowed ourselves to become ideologically/intellectually cocooned, so much so that some of us have yet to comprehend how the likes of the Brexit result and similar momentous events came about. This conference is an important opportunity to broaden our horizons.

## **Oxford - 'the City of Dreaming Spires'**

Few places are more readily associated with scholarly endeavour than Oxford. This city on the River Thames in Southern England is the location of Oxford University, the oldest university in the English-speaking world. Whilst some might argue that the city is not as aesthetically pleasing as its arch rival Cambridge it remains a visual delight and a veritable treasure house of human achievements. Oxford not only boasts the world-famous university, but is also home to Oxford Brookes University, an institution that consistently scores highly when it comes to student satisfaction surveys.

Being within easy reach of London has ensured that far from being a sleepy academic oasis Oxford has been touched by national events such as the English Civil War in the Seventeenth Century and has itself helped mould those who have gone on to enhance the body of human knowledge. To date it is worth noting that Oxford University has been the place of study for 26 British Prime Ministers. The city has long been a centre of publishing, with the Oxford University Press being the largest university press in the world. No visit to Oxford would be complete without a visit to Blackwell's Bookseller and of course the Ashmolean and Pitt Rivers Museums. Oxford has long been a centre of manufacturing and innovation and is proud to be the place where the famous Mini car is assembled. Oxford is ethnically diverse and extraordinarily outward looking, being twinned with Bonn (Germany), Grenoble (France),

Leiden (The Netherlands), León (Nicaragua) and Perm (Russia). Whilst Oxford is in many respects a thriving and affluent city it is important to note that it has pockets of deprivation and faces challenges over land usage and new development that have given rise to environmental campaigns such as that to Save Port Meadow. That said, it still has the ability to beguile and is proud to be place rich with positive associations and as such one of the strongest brand names in the world.

The shopaholics amongst you may well wish to visit the famed Bicester Village, Oxfordshire ([www.bicestervillage.com](http://www.bicestervillage.com)) – this is easily reached from Oxford

See: [www.tourinaday.com/oxford/bicester-village-to-oxford.html](http://www.tourinaday.com/oxford/bicester-village-to-oxford.html)

Finally we heartily recommend that if time (and budget) permits that you venture forth from Oxford to visit the Oxfordshire town of Woodstock where you will discover the magnificent Blenheim Palace ([www.blenheimpalace.com](http://www.blenheimpalace.com)), the birth place of Sir Winston Churchill (1874-1965).
